AUGUST 2015 - MAY 2019

## PORTFOLIO — <https://andreochose.github.io/Portfolio/>

Here you can find my portfolio with a couple of my projects, my github and linkedin profiles, and a little bit about me! My Play2Learn project is too complex for github to host the project unfortunately. I didn't feel like spending money to host the project elsewhere so if the user wants to visually see the website, they'll have to download the zip file from github and follow the instructions within the readme file. It does have some nice keyframes and CSS so if you're interested in seeing that live the download will have to do.

## SKILLS

HTML

CSS

JavaScript

Bootstrap

Vue.3

Forklift

Operating

## LANGUAGES

English
